Workshop Duration
21ST TO 26TH MARCH, 2019

DR. RAO'S  ENT
Sensitive to your senses

Hyderabad ENT Research Foundation (HERF) is glad to announce the **114th Hands on Temporal Bone Dissection, FESS and Live Surgical Workshop** to be held at our premises at KPHB, Hyderabad. We have so far trained more than 3200 ENT surgeons from across the world, including many from USA, UK, Malaysia, Singapore, Iraq, Iran and Bangladesh, through our previous 113 workshops. Our KPHB facility features a 6000 sft. floor space dedicated solely to research and workshops. A 12-station Temporal Bone Laboratory with HD quality camera mounted microscopes, and a 150-seater auditorium, are some of the highlights of this state-of-the-art venue.

Our sincere thanks go out to everyone for their generous encouragement and support towards our mission of developing and improving the skills of junior as well as senior ENT surgeons.
